

INSURE AND PROTECT

## Travelers Pre-Breach Services Provided By Symantec™

Travelers and Symantec – a real plus for brokers and customers alike. By working with a leading provider of cyber security, Travelers now offers pre-breach services through Symantec, in addition to the cyber coverage and post-breach services that are already provided to customers. That’s good news for policyholders worried about cyber attacks that can shut down their organisations. Travelers plus Symantec. Better together when it comes to cyber protection.

Preparation is key to mitigating a potential cyber-related event. To assist Technology & Medical Technology Cyber Policyholders achieve a higher level of cyber security for their organisations, Travelers offers the following pre-breach services from Symantec\*, a global leader in cyber security solutions accessible through the Travelers eRisk Hub®:

### **Symantec Cyber Resilience Readiness Assessment and Cyber Security Professional Consultation**

An online assessment designed for an organisation to quickly understand their current cyber security posture and includes an official report and up to a one-hour consultation with a Symantec cyber security professional to help improve areas of weakness or vulnerability. Created using the combined experiences of Symantec’s

25,000 security professionals worldwide and is tailored to address specific security concerns faced by organisations today.

### **Symantec Security Coach Helpline**

Professional cyber security advice to aid businesses and organisations in strengthening their cyber security programmes. This confidential consultation service is available for up to one hour, at no additional cost. The helpline will answer your business questions about general cyber security issues such as: What types of data should be encrypted? or What are some best practices for securing mobile devices?

### **Symantec Cyber Security Awareness Training**

Educating your entire organisation not only helps to minimise potential attacks but can reduce internal security accidents. Symantec offers innovative

security literacy and role-based training designed to help companies defend against cyber security threats by promoting proactive employee behaviour. These courses can be provided via Symantec’s cloud-based learning management system or through an existing SCORM-compliant training platform, providing an easy way to supplement your existing employee training requirements.

### **Symantec Service Discounts**

Boost your cyber security readiness with discounts on many Symantec services and solutions, including Symantec Endpoint Protection (SBE), the DeepSight™ threat intelligence platform, Symantec Managed Security Services, and Symantec Incident Response Tabletop Assessment.
