Legal Costs Management Solutions

Our dedicated team of costs lawyers located throughout our offices around Europe, manage all matters from a legal standpoint on an equal footing with Solicitors and Counsel and can help manage your legal costs by:

- Proactively negotiating and settling presented bills from Claimant solicitors; we have established relationships with external solicitors and work closely with them to settle bills in a fair and efficient way
 - Detection and early intervention – this early view on larger, more complex cases gives us the ability to obtain interim advice and control costs and behaviours throughout the life of the claim
 - Utilising the power of our data and analytics to monitor and keep abreast of legal costs trends to deliver optimal legal fee settlements for our customers
 - Providing expert technical and legal guidance while working closely with our Claim professionals to maximise opportunities to deliver the best possible claim outcomes for our customers
- Our legal costs lawyers are fully accredited through the Association of Costs Lawyers in the UK and in addition have extensive experience handling costs negotiations in the Irish market. Our work and the services we provide our customers are of the highest standards
 - The Legal Costs Management team also works closely with our customers on funding and or additional liability issues including drafting of funding documentation and on any issues in relation to solicitor client matters
