

## SOLUTIONS FOR THE MEDICAL TECHNOLOGY SECTOR

# Enabling Innovation for Medical Technology businesses

Medical technology companies are constantly innovating to deliver products that provide solutions for patients. On the cutting edge of progress, successful companies write their own prescription for success. When companies are out on the frontier of innovation, however, they run a risk that something will go wrong.

### Innovation creates risk. We insure it.

With our extensive knowledge and expertise in insuring medical technology businesses, Travelers has stayed in-step with the needs of this growing industry. We have industry-specific coverages and services that span the lifecycle of product development from R&D to production or distribution, and we work with a multitude of customers ranging in size and specialisation, from start-ups to well-established companies.

### Product information

Our Medical Technology product has been designed alongside our partner brokers, to provide a combined property and casualty insurance coverage for those businesses involved in the medical technology industry. The product combines many market leading features which provide the depth and breadth of coverage and service that our brokers and customers have told us they need.

### Broad and flexible Property and Business Interruption protection is available for Research and Development operations including:

- Research & Development Property
- Research & Development Data
- Research & Development Business Interruption including:
  - Continuing expenses of R&D operations
  - Delays and/or shortfalls in payment pledges (milestones, grants etc.)
  - Contractual commitments for third party services the insured is unable to use following loss
  - Contract Research & Development income
  - Increased costs
- Spoilage of R&D Property & Stock
- Condemnation of undamaged property
- Sudden & accidental contamination
- Property in transit, including spoilage

### Liability Protection is available for:

- Bodily injury or property damage that results from your products or completed work
- Additional Insured protection to cater for contractual requirements. This is particularly relevant for North American exposures
- Product recall withdrawal expenses where there is a risk of the product causing injury or damage
- Cover for exports to USA and Canada with ability to provide jurisdiction for these territories
- Efficacy cover is included
- Professional Indemnity cover is available to complement the Public and Products liability cover
- Flexible basis of settlement – providing cover on an any one claim or an aggregate basis for professional indemnity and intellectual property rights
- Cover provided for inadvertent infringement or violation of Intellectual Property Rights

### Cyber cover - 1st & 3rd party available:

With a growing number of medical devices incorporating wireless technologies and complex software comes the increasing risk of a cyber breach.

Our new medical technology cyber protection offering includes;

- Network Security (first party cyber)
- Cybermedia liability (third party cyber)

For full details of our cyber technology proposition, please see our separate cyber factsheet

### Key Selling Points

- New – broad and flexible property & casualty package approach
- New - 1st & 3rd party cyber cover

### Risk Control

Although risk management in the medical technology industry requires regulatory compliance and safety programmes that are common to manufacturing operations, the complexity of processes and completed products require unique risk control solutions. Clean rooms and laboratories are critical to many operations and contain heightened exposures, such as biological contaminants, specialist processes or storage environments. Specially designed protection and maintenance can prevent equipment failures or fires which can cause contamination and down time.

### Don't risk your bottom line.

The Risk Control team at Travelers is an innovative provider of proactive risk control services. Our knowledgeable professionals make a difference in helping you control and prevent business losses. Risk Control has experience in property protection, clean room design, medical device liability, bio-technology, biosafety and Employers' Liability.

### Claims Service

Protect your bottom line. At Travelers, the importance of effectively managing claims and claim costs is clear. Our claim specialists understand the medical technology industry and know the types of loss that can occur. Our professionals work to deliver a prompt, efficient and knowledgeable service to resolve claims quickly and fairly.

### Get The Inside Story.

Our underwriters know the special needs of the growing medical technology industry. Travelers can provide a wide range of business coverage options for a wide variety of companies in the medical device and biotechnology industries. Qualified businesses can often place all applicable lines of coverage with Travelers, eliminating the need for multiple insurance carriers.
